ICMJE DISCLOSURE FORM

Guidance and definitions:

This form is to enable you to provide information about financial and non-financial relationships and activities that readers may find pertinent to your work. Although the existence of a relationship or activity may not represent a problematic influence on your work, a complete listing helps to reassure readers of your commitment to transparency. If you are in doubt about whether to list a relationship or activity, it is preferable that you do so.

Relationships and activities that are DIRECTLY RELATED to the reported work include all those financial and non-financial relationships and activities that supported the work and, if financial, were paid to you or your institution. Report any relationships and activities, paid or unpaid, present from the time of initial conception and planning of the work to the present.

Relationships and activities that are TOPICALLY RELATED but not directly related to the work include all other financial and non-financial relationships and activities within the broadly defined field addressed in the work. The time frame is from 36 months ago to the present. For example, if your work addresses a specific drug for the treatment of diabetes, TOPICALLY RELATED relationships and activities include but are not limited to honoraria for lectures on the diagnosis of diabetes, grants to study other diabetes treatments, and membership in groups or committees related to diabetes during the last 36 months.

Have you had the following relationships or activities either DIRECTLY OR TOPICALLY RELATED to the work reported?	Name of the relationship or activity (list each one; add rows as needed).	Is this relationship or activity <u>DIRECTLY RELATED</u> to the work reported? Time frame for reporting is from the initial conception and planning of the work to the present.	Is this relationship or activity <u>TOPICALLY RELATED</u> but not directly related to the work reported? Time frame for reporting is from 36 months ago to the present.
