Translators' Commentary

The International Committee of Medical Journal Editors (ICMJE) first published its formal document of “Uniform Requirements for Manuscripts Submitted to Biomedical Journals” (URM) in 1979, and has since made several revisions. The URM was renamed “Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journals” (ICMJE Recommendations) in August 2013, and the document of the ICMJE Recommendations was up-dated in December 2013 and December 2014 after its first release. This text is a Chinese language translation of the Up-Dated ICMJE Recommendations (December 2014). Qinghui Zhou, Xiaoqian Li, Lanyu Chen and Hongyun Chen from the Editorial Office of the *Journal of Integrative Medicine* prepared this translation. The ICMJE periodically up-dates the ICMJE Recommendations, so this translation prepared in January 2015 may not accurately represent the current official version at www.ICMJE.org. The ICMJE has not endorsed nor approved the contents of this reprint/translation. The official version of the Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals is located at www.ICMJE.org.
